## ***Objective and Purpose:***

*To promote cooperation and friendship among the breeders and owners of Brittanys and to encourage higher standards in breeding, training and showing of Brittanys in the field and in the show ring; to discourage the breed from becoming split into groups of "field dogs" and "show dogs" and to strive to keep it forever a "dual dog".*

# Book of the American Brittany

1990-2010 EDITION

compiled and edited by  
Jessica Carlson

## NOW AVAILABLE

### The Book of the American Brittany, 1990-2010 Edition

is an invaluable source of reference and enjoyment for all Brittany breeders and enthusiasts. Expanding upon the previous works by Dr. Fred Z. White, Nicky Bissell, and Rheta Cartmell, this 320-page edition focuses on dogs and Brittany events between the years 1990-2010.

*Chapters include:* History of the American Brittany; Field Trialing 1935-1989; Modern Field Trial Winners; ABC Classics & Championships; The Show Brittany; The Dual Brittany; ABC Futurities; Performance Events (Hunt Tests, Obedience, Agility, NSTR); Top Producers; ABC Honor Rolls (Hall of Fame, Life Members). These are followed by an index of ABC event winners from 1942-1989, and an index of all dogs mentioned in the book. The text of this book is brought to life with over 625 color and black/white photos, many of historical value, and as many as could be obtained of the modern-day dogs mentioned in the book.

# 2022 ABC Pheasant Classic

## Harms Cattle Company

### Valentine, Nebraska

Kent D. Patterson

In an age of club decline, lost grounds, and economic challenges, there remains an oasis for the Brittany all age stalwart...The Harms Cattle Company. Located south of Valentine, NE, the Harms family has done more for the all age Brittany over the last decade than any landowner in the United States. Their generosity and dedication to the breed is only exceeded by their desire to make both the Region 19 and Pheasant Classic better year over year. The American Brittany Club's Pheasant Classic was the first "bird" classic created by the parent organization. From inception, it was a west coast staple running from 1960 to 1971, except in 1967 when held at Baldwinville, NY. In 1972, it was held at Green River, IL and moved about from Pennsylvania, Oregon, Iowa, and South Dakota over the years following. In 2016, it landed on a spectacular venue, the Harms Cattle Company, south of Valentine Nebraska. These grounds and hosts have made this championship a "must go" event for the Brittany all age enthusiast with courses that stretch over 26 miles across 10,000 acres of meadows and sand hills holding native populations of prairie chicken, sharp-tail grouse, and pheasants.

Hosted by the St. Croix Valley Brittany Club, Steve Ralph and wife, Lori work tirelessly to make sure all the particulars are covered. Other club members, Sue Januska and Bret Lindback were also on deck to lend additional support. Lori Ralph, Alicia Harms, and Barb Harms make sure no one goes hungry. On Monday night, the annual steak cookout had everyone in attendance for the aged New York Strips. The Pheasant Championship is proud to be associated with Purina and Garmin. These fine partners provide equipment or product in support of this sport in a broad and generous manner.

It was great seeing friends for the first time since spring. Gene and Sherry Stewart flew out from Pennsylvania, their dog Flatwood Tiger won the Pheasant Championship in 1991. Steve Chang, Ed Tillson, and Tom Tracy brought their string of competitors along with amateur handlers Dan

Campbell, Stan Truska, and Kent Patterson. Owners Bob Rankin, Jack Alexander, Crystal Alexander, Tom Jagielski, Steve Ralph, Sue Januska, Brett Lindback, Bob Travis, Mary Karbinger and Stan Williamson came to see their charges on these beautiful grounds.

We were blessed to have two judges with a wealth of experience and knowledge look over the field of starters. Kelli Aiken, based out of Kansas, spends the summer in the sand hills of Nebraska fine tuning her string of Irish Setters. She won or placed in every stake at the Irish Setter Nationals in 2022 held at Blue Mountain Wildlife Demonstration Unit in Booneville AR. Missouri pro trainer Justin Crook also spends his summers in the sand hills northeast of Bassett, NE. His highly competitive string of shooting dog pointers and setters are primarily campaigned over the Midwest circuit. Bud Moore was traveling with Justin as they traveled all day from Wisconsin to arrive in time to begin the championship. We appreciate the enormous effort of both judges in making this a stellar event.

With a course of this magnitude, having dogs available for successive braces is a challenge. It requires someone who knows the ground, courses, gates, and equipment to safely transport humans and canines. John Harms took time out of his busy schedule using his UTV to guide everyone through the scenic 26-mile course that challenged all competitors.

1st

The champion was found in Piney Run Hilltop Blew. The 4 yr old was coming off a good prior season having won both the Chicken Championship and the National Amateur Championship. Bred by Martha Greenlee of Baskerville VA, trained by Ben Lorensen of Corinna ME, and handled by his owner Kent Patterson, Blew spent the summer in the sand hills honing his skills on Prairie Chickens and Sharp-tail Grouse. Released west of marsh in the Lord meadow, he ran the edges past the

burned baler swinging west to a far windmill where he went south for an extended period but recovered as the course swings north. At 35, he went under a fence and froze in cover where only his head and tip of tail could be seen. Kent flushed multiple pheasants to the east with all manners in order. He continued his robust swings through the hills, the bog pasture, and ground south of the Harsh meadow. He carried his speed, power, and dimension evenly throughout the hour.

2nd

Jaboub's Spell Caster (Tabu) is owned by Tom and Debbie Jagielski on the string of Tom Tracy. Tabu was cast away into the Trout hills. At 17, there was a divided find on the hill as the course drops down into the Lord Meadow. She cruised the margins of the marsh and shot west to a tree grove where point was called, Tommy putting pheasants in the air with all manners in order. As the course turned into the Alkali Hills, she pointed a pheasant hiding in the grassy fencerow. Into the hills, she maintained the front and was credited with a chicken find at 50. She spent the final minutes of the hour along the edges of the north meadow.

3rd

TMR Lucky Bets was away from the south hills windmill barking with glee as the party pushed east. Bets was smooth and forward toward the Duck Camp while hunting the margins along the Ballard Marsh and south hills. At 39, he skimming along the creek edge west of the bale yard and credited with a stop to flush. Taken on into the North Trout Hills, he continued his probing casts and credited with mannerly finds at 47 and 51. He finished nicely.

4th

Piney Run Patch is owned by Martha Greenlee, trained by Ben Lorensen and handled by Kent Patterson. This was Patch's first summer on the prairies and the spacious expanse of the country was to his liking. Released on the afternoon course near camp, he went out of sight to the west. At 10, he was gathered up and sent into the north meadow where he rimmed the marsh and sailed to the base of the North Hills nearly a quarter mile away. He was watered at the lake and sent west toward Alkali Lake. At 22, he dropped into a low bowl as scout Crystal Alexander was trying to lift her cap to call point but it was getting hung up on her pony tail. It took the handler some time to figure out her actions and as he and the judge rode to the dog, a pheasant came out of the bowl with Patch standing proudly at the far end. He continued his hour through the Alkali Hills to the Lord Meadow with power.

The Running

**Brace 1: Mr. Staley – Dan Campbell; Wingra's Indy-Go! – Ed Tillson**

The grass was clad in dew and the gallery in jackets as Doc and Indy sprinted away at 8:00 am and 36 degrees. Both moved well and maintained the front for the first quarter of the hour as the course runs into the south hills to a windmill tank. Watered, both dogs went east as we move toward the Ballard Marsh Duck camp at moderate range. Indy had a nonproductive at 40 as the course rims the southern edge of the Ballard Marsh. At 45, both dogs took a north fence line where birds were seen coming out the high grass. Indy was seen moving as Doc stood for the event with Dan firing. Doc finished nicely along lines south of camp near the bale yard.

**Brace 2: CVK's Spartan King – Tom Tracy; Godfather's F.N. Rockstar – Steve Chang**

Leo and Rocky were released from the bale yard southwest across the meadow and creek leading to the Trout hills. Birds were seen in the air near the entrance but no dog was involved. Leo is a 3- time winner of the event and was stretching the front over the early half of the hour and pointed at 20. Tommy pointed west and fired but the judge didn't see the birds. Rocky had been maintaining the front at moderate range as we drop down into the Lord Meadow. Leo had a nonproductive at 40

along the marsh as Steve was working hard to get Rocky out of the marsh and was recovered with a find at 47 in a mott north of the gate, with all manners in order. Leo made an extended cast south once the party cleared the marsh that took some time to recover him. Both dogs finished in the Alkali Feedlot hills.

**Brace 3: Wild Wild Willie – Ed Tillson; JWB Arctic Cat – Tom Tracy**

It was 54 degrees under sunny skies as Willie and Kimber sprinted away from the Alkali Feedlot gate. Kimber scored first in the hills with her usual striking style, all manners in order. Crossing the Alkali meadow to catch the front, she had a stop to flush near the creek at 12. Willie was credited with a stop to flush on a pheasant at 20 in the west meadow as Kimber was pointed in a shelter belt to the west. At 24, Willie was pointed. As the gallery rode toward him, the pheasant got up and it was more than he could stand to end his hour. Kimber came through the west meadow then went south toward Alkali Lake with Tommy asking for the tracker at 50.

**Brace 4: Piney Run Patch – Kent Patterson; Hoochie Coochie Man – Ed Tillson**

Patch and Carl were away for the afternoon braces headed west toward the Alkali Feed lot. Patch's hour was outlined above. Carl was listening well and maintaining the front through the west meadow. He was watered at the lake and hunted the base of the hills as the party went west toward Alkali Lake. He began to shorten as we approached the Alkali Hills with Ed electing to pick up.

**Brace 5: Urban American Legend – Steve Chang; Countyline's That Guy – Stan Truska**

Urbie and Guy were away at the east gate exit of the Alkali Hills. Both dogs were busy and maintaining contact with their handlers over the first half of the hour. Urbie had a nonproductive at 40 in the Lord Meadow. Both dogs were at medium range through the Trout Hills finishing near the windmill leading to the Harsh Meadow. No birds credited to either dog.

**Brace 6: Big Mac XIV – Steve Chang; Almaden's Under Lock and Key – Ed Tillson**

Sue Januska was in the gallery to watch Mac as temps had climbed into the 80's. Oudi and Mac were away near the Harsh Meadow. Both moved well as the party traversed the south hills and were watered at the tank headed east toward the duck camp. At 40, Oudi was pointed with Ed unable to produce any birds with relocation. At 45, Ed elected to pick up. Mac had a nonproductive at 50 near the Ballard Marsh and a find at 54 along the edge of the South Hills. Mac had a skunk find at 55 that had everyone nervous but it must have fired him up as he had a strong finish along the Ballard Marsh margins.

**DAY 2**

**Brace 7: Countyline's Full Throttle – Stan Truska; Prairie Wind Pistol Pete – Tracy**

45 degrees with winds out of the north greeted Mack and PD as they sprinted south. PD was the first to make a move over the hills east of the gallery. PD was pointed in a ravine at 10 with Mack backing up the hill. A large coyote bedded down finally got nervous enough to bolt west. Both dogs were absent to the west for an extended time as the gallery sat near the windmill. PD was the first to show coming out the hills from high on the bluff as the gallery turned east up the valley. Mack was recovered shortly thereafter and brought forward where he went back in the hills south. At 40, PD shot north on a big cast toward the duck camp. At 43, Stan asked for the tracking receiver. PD continued strong along the Ballard Marsh finishing near the windmill to west. He needed a bird!

**Brace 8: Scout's Upland Trail-Blazer – Steve Chang; CVK's Jungland – Tom Tracy**

Scout and Clarence sprinted west from the gate south of camp at 9:15 with temps in the low 50's. They were together into the bale yard meadow

as the party crossed the creek. At the gate into Trout Hills, Scout was seen on point to the north with Clarence coming around the hill and birds in the air. After it was all stopped, both dogs had dog wagon tickets.

**Brace 9: Piney Run Zack – Kent Patterson; Jagoub’s Spell Caster – Tom Tracy**

Tabu’s hour was outlined above. Zack was away into the Trout hills. At 17, there was a divided find on the hill as the course drops down into the Lord Meadow. Zack had a nonproductive at 30 near the Alkali Feed Lot gate and another at 45 in the hills to end his bid.

**Brace 10: Jagoub’s Whodat Say Whodat When I say Whodat? – Tom Tracy; Noble Southpaw – Steve Chang**

Whodat and Manny sprinted east from the Alkali Meadow and showed nicely along the base of the hills that border the north meadow. Watered at the lake and into the west meadow both were working hard in search of game as the temps were steadily rising. They finished at moderate range just short of the Lord Meadow with no game to their credit.

**Brace 11: Piney Run Hilltop Blew – Kent Patterson; Code of Noble – Steve Chang**

Blew’s hour was outlined earlier. Morris had his sneakers on this day with big moves around the Lord Meadow and further south at the west windmill. He went south at an extreme level in the Trout Hills that took some time for him to return as the party dropped out of the hills near the bog pasture. He continued to run the southern margins as the hour ended in the Harsh Meadow with no bird work to his credit.

**Brace 12: Piney Run Senör – Kent Patterson; Cedar Valley Luke – Tom Tracy**

Luke had been injured in the amateur championship days earlier and was a scratch. Big was released in the Harsh Meadow then through the gate into the South Hills. He was watered at the windmill and taken east toward the duck camp with finds at 33 and 40 on pheasants with all manners in order. At 43 along the Ballard Marsh margin, Big froze with a large pheasant sent out over the lowland. The heat was taking a toll on the

young dog so Kent elected to pick up at 50 near camp.

**DAY 3**

**Brace 13: Piney Run Jake – Kent Patterson; Kashmir – Tom Tracy**

Jake and Kashmir were away at 8:00 on the last day of the championship. Kashmir went southwest and took some coaxing back to the course that entered the hills. Jake was at moderate range over the early portions of the course. Both handlers elected to pick up at the windmill. Overcast skies greeted those gathered at breakaway. Kashmir and Gunner worked both sides of the Ballard Marsh meadow to the 10 minute mark. Gunner pointed at 12 and went with the birds to get a ride on the dog wagon. Kashmir was watered at the South Hills meadow and made the big swing east. He was smooth and forward through the South Hills and credited with a find at 42 near the Harsh Meadow. He finished ahead toward the bog pasture.

**Brace 14: Roustabout’s All In – Tom Tracy; TMR’s Lucky Bets – Steve Chang**

Bets hour was outlined above. Al was flashy over the early portions of the course swinging with Tommy as the gallery turned north near the duck camp. He maintained the long lines near the marsh heading west into the meadow south of camp. He had a nonproductive at 43 near the North Trout Hills gate and finished strong in the hills.

# Bits About Brittanys

by Clarence Goering

*The following stories and cartoons have been reprinted from a manuscript that was intended to become a published book. This work was titled "BITS ABOUT BRITTANIES" and was written by Clarence Goering from Newton, Kansas. Clarence bought his first Brittany in 1942 it was a male he named Marquette Allamuchy. He was very active with Brittanies from that point until the 1960's. Being an active, well-known breeder during that era his kennel "TRIUMPH BRITTANIES" was nationally sponsored by Ralston Purina feed company. A copy of this manuscript was assembled into book form and is on display at the Brittany Field Trial Hall of Fame museum in Grand Junction, TN.*

## A DOVE HUNT

A most amusing and interesting incident happened one evening while we were dove hunting. Cecil and I decided to go out late one afternoon. I took my dogs Mitzie and Duke with us to do the retrieving. We went to a pasture which had two ponds. We were going to shoot the doves as they flew in to get their evening drink of water.

As we got to the first pond, I said to Cecil, "I'll stay here and keep Duke with me, because if he goes with you, he'll come back to me the minute he hears me take my first shot." "So you take Mitzie with you, she loves to hunt and retrieve and will work for anybody."

He took Mitzie and soon the first bird flew by. Cecil shot the bird and it fell in the water. Mitzie immediately swam out and made the retrieve. Cecil put the bird in a paper sack he had taken with him and waited for the next bird. Cecil killed two more birds, both of which fell on the bank and Mitzie retrieved them. So Cecil had three birds in his paper sack. Cecil was sitting on the west side of the pond, and after having shot the three birds, he noticed that the doves were flying along the east side of the pond. So he decided to go over on the east side taking Mitzie with him, but leaving the sack of birds behind. On the east side he soon shot another bird which Mitzie retrieved. Then another dove flew by and Cecil shot, but he thought he missed the bird as he was facing into the sun when he shot. But Mitzie ran over behind the dam and after a bit, came back with a dove. So Cecil thought he must have hit the bird after all. Soon another bird flew by and again Cecil shot and thought he missed. Mitzie again ran to the bottom side of the dam to find the bird and shortly came back with

a bird. However, when Cecil took the bird from her, he noticed its feathers were wet. So he became suspicious, but decided to see what would happen next. As the next dove came by, Cecil shot, but knew he missed that bird. But Mitzie was off to make the retrieve. Cecil watched her, and she looked for the bird in the weeds behind the dam. But being unable to find a bird there, she made her way over to the paper sack on the west side of the pond, took the last dove out of the sack, and proudly brought it to Cecil. Far be it from her to let Cecil think that he had missed three birds in a row.

## SKUNK-ANYONE?

Sam was a real top notch hunter who always tried to please his master and did everything right. Borger and I were hunting quail. We had flushed a covey, which flew and scattered out along a fence row. As we worked along the fence, the dogs pointed several singles, which we shot. Then we came to a little waterway which ran right angle to the fence. Sam started down the waterway and soon made a point. Borger started over toward him, but he went off point, worked up a little farther, and went on point again. This happened several times.

By the time Borger was almost up to him, out from the other side of the grass walked a great, big skunk. When Sam saw the skunk, he circled around him to try to herd him back to Borger. Sam was smart enough not to track the skunk, so he didn't cause the skunk to spray, but he was slowly but surely herding him back to Borger.

Borger stood there in bewilderment, not knowing what to do. The more he yelled at Sam, the more Sam seemed determined to herd the skunk to him. Seeing what was going on, I called to Borger, "Come back and

leave Sam alone.” When Borger started back to me, Sam evidently came to the conclusion that he didn’t want the skunk, so he stopped his herding attempt, came back with Borger, and once again started to hunt for quail in the fence row. It was funny when it was all over, but Borger and I had some real tense moments while it lasted, fearing that Sam might decide to tackle instead of just herd the skunk.

### **IT TAKES DOGS TO LOCATE BIRDS**

Clare and I had hunted on Max Bailey’s farm southeast of Emporia for several years. We had always called him to let him know we were coming; however, this time Clare forgot to call. So when we drove in his yard, his wife came out of the house and asked, “Why didn’t you call?” “Max didn’t know you were coming, so he has gone hunting with a couple of his friends from Ottawa this morning.” “They went down to the south pasture just a little while ago, so why don’t you join them?”

As we drove down the road, we saw them just starting to walk a hedge in a pasture. When Max saw us, they stopped walking and he came over to our car and asked why we hadn’t called him. He said that he would tell the other fellows to go on and he would hunt with us. But I said no, that wouldn’t be fair, as the other fellows had called and were his guests. We asked him if he knew where there might be some birds and he said that as they got out of their car, a big covey had flushed out of the end of the hedge. The covey had split, some of them flying across the road and landing in a pasture end the rest flying down along the hedge. They had tried to find the birds in the pasture but had only kicked out three birds. So now they were going to go along the hedge. Max suggested that we go back to the pasture, as we might be able to find the birds with the dogs. He said that there were at least 30 birds over there.

I also asked him about the plum thicket along the road west of his house, and he said that he had seen a covey in the thicket yesterday. I told him we would go try to find the birds in the pasture and then go see if the birds are in the plum thicket today.

We drove into the pasture to the spot where Max said the birds had landed. We got out of the car. I took my gun out of the case and loaded it, so I was ready to shoot. As I opened the crate, the dogs jumped out and

hit the ground almost on top of a quail which flushed. It startled me, but I did manage to get off a shot and dropped the bird. The dogs made the retrieve, and I told Clare, “You know, I’ll bet those birds are scattered right around us, and if we just mess around here, the dogs will work them out and point them for us.”

To make a long story short, we never did get over 100 feet from the car, and the dogs pointed one single after another.

When we counted our birds, we had a total of eleven. So we decided not to shoot anymore birds out of that covey, but to drive over to see if we could find the birds in the plum thicket. When we drove up to the thicket, there was a car parked in the road and two hunters were coming back to it.

Clare suggested that we drive on to find another place, but I said, “No, let’s wait and see what they have to say.” They told us that when they drove by the thicket, they saw a nice covey of birds in it, but as they got out of the car and slammed the doors, the birds had flushed and flown a little way and landed in a grass path. They asked if we had dogs and I said, “Yes.” They said, “Well, you might find them with your dogs, but we have been tramping around in that patch for 45 minutes and we only put up one bird, so we’ll leave them to you.”

I looked at my watch and it was 11:15. So I said to Clare, “Let’s eat our lunch and give the birds a chance to settle down, before we go after them.” In about 30 minutes, we started for the patch. Before we got there, both dogs had started working in the grass and each was on point on a quail. We needed seven birds to fill our limit, and within 15 minutes, the dogs had pointed enough birds so our mission was accomplished.

After we walked back to the car and were ready to leave, Max and his friends drove up and asked, “How did you do?” “We did mighty good,” I said. “We’ve had our lunch, and just finished filling out our limit.” Oh yeah,” said one of the fellows, “seeing is believing.” So I opened the car door and started to take out a bird at a time, laying them on the top of the car. I was counting the birds, one--two--three--By the time I got to eleven, the fellow said, “Ok!” “Ok!” “That’s enough, I believe you.” So I stopped counting. They went on their way and we very happily started for home.

# ***In Memory of Dimi Morse***

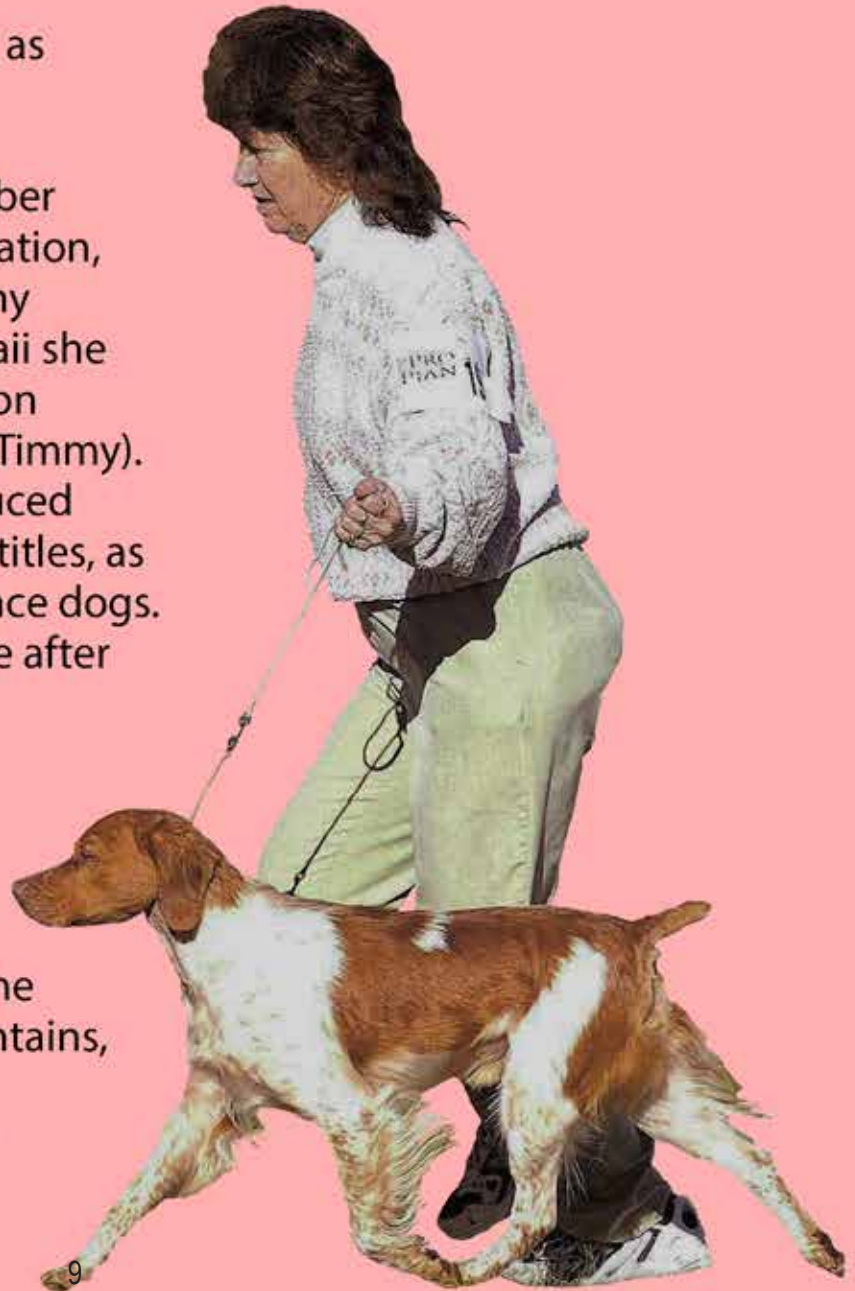

Dimi passed away on the morning of 3 September 2022 after a long-fought battle with cancer. As Dimi put it "I outlived my expectations by a long shot" and we all hoped she would beat it.

Dimi graduated from Punahou School in Honolulu, Hawaii. She was an adventurous person, who competed in the famous Ironman World Championship in Hawaii, and the US Olympic swim team trials. She also surfed and was a member of her high school swim team.

Her love of dogs led her to a career as a veterinary technician and on to participation in many facets of competitive dog sports. As a member of the Professional Handlers Association, Dimi handled and put titles on many different breeds. While still in Hawaii she finished Hawaii's first Dual Champion Brittany, Sequani Roi Des Collines (Timmy). Dimi was also a breeder who produced Brittany's with both show and field titles, as well as having High in Trial obedience dogs. Dimi also became a Hunt Test judge after moving to Florida in 1992.

As per her wishes there will be no ceremony or wake to mourn her - that was not her style. Her ashes will be returned to Hawaii where so much of who and what she was - was formed among the mountains, the lava and the breaking surf.

**June 25, 2022**

The Central Maine Brittany Club held its specialty with the Penobscot Valley Kennel Club all breed show on June 25, 2022. The day was sunny and hot. It was good to see old friends and new, and enjoy a little competition. The potluck luncheon that followed was well attended and sported some scrumptious creations. Thank you to Sarah LaBonte who distributed trophies. Many thanks to the CMBC members and friends that sponsored the trophies, which included: LLBean totes, buckets, dog beds, toys and treats.

Our sweepstakes judge, Denyse Milligan Adams had a nice entry of youngsters and oldsters to evaluate. She was thorough yet patient in her evaluations and awarded Best in Sweepstakes to Sigbrit's Everything Nice and the Best of Opposite to Windswept Too Darn Hot. Unfortunately, no photos were taken of these two lovely young Brittanys. The Best of Veteran Sweepstakes was awarded to GCHB Hill's Catch the Spirit SH, CGC, FDC, TKI and the Best of Opposite Veteran was awarded to CH Birch Spring LH Ziva Be Mine JH.

Mrs. Barbara Dempsey-Alderman judged the regular and non-regular classes and chose CH Jackson's Full Speed Ahead as Best of Breed and awarded Best of Opposite to GCH Birch Spring Royal Flush JH. Best of Winners went to the winners bitch Birch Spring KB Heart of the Storm with reserve winners bitch going to Sigbrit's Everything Nice. Triumphant's Flying Solo TKN was awarded winners dog and reserve winners dog went to Tonan-Hope-Loki Cents and Scentsability. Select Dog was CH Wingra's Indy-Go! and Select Bitch went to CH Sippewissett's Beautiful Monarch Feileacan. The judge also chose two awards of merit: CH Horizon- Breezewater's the Sorcerer's Apprentice and GCHB Hill's Catch the Spirit SH, CGC, FDC, TKI.

Thank you to all exhibitors, judges, and CMBC members who helped make this a successful Specialty event. We could not have events like this without you.

## SOUTHERN NEW ENGLAND

**Eastern States Expo**

**West Springfield, MA**

**August 27, 2022**

Southern New England Brittany Club held it's designated specialty show with Newtown KC in W. Springfield, MA. We had a nice entry of 7 Puppy sweeps, 6 Veteran sweeps, 15 regular class and 12 BOB participants. 23 of these were Owner Handler eligible. SNEBC would like to thank both our Sweeps judge Julie Jussaume and our Breed Judge Debra Thornton for all their hard work to find their winners as the quality of dogs present made for tough decisions, I'm sure. Thank you to all that participated in our show and joined in our post show gathering for some wonderful tasty treats and great stories and conversations. A huge thank you to Elizabeth and Tim Smith for hosting our gathering at their RV site. I also want to thank club members Don Bristol and

Travis and Linda McNeil for coming out to support our club event.  
Another wonderful event in the books. CONGRATS TO ALL THE WINNERS!

# Breed Standard for the Brittany

**General Appearance:** A compact, closely knit dog of medium size, a leggy dog having the appearance, as well as the agility, of a great ground coverer. Strong, vigorous, energetic and quick of movement. Ruggedness, without clumsiness, is a characteristic of the breed. He can be tailless or has a tail docked to approximately four inches.

**Size, Proportion, Substance:** Height: 17 1/2 to 20 1/2 inches, measured from the ground to the highest point of the shoulders. Any Brittany measuring under 17 1/2 inches or over 20 1/2 inches shall be disqualified from dog show competition.

**Weight:** Should weigh between 30 and 40 pounds.

**Proportion:** So leggy is he that his height at the shoulders is the same as the length of his body.

**Body Length:** Approximately the same as the height when measured at the shoulders. Body length is measured from the point of the forechest to the rear of the rump. A long body should be heavily penalized.

**Substance:** Not too light in bone, yet never heavy-boned and cumbersome.

## HEAD

**Expression:** Alert and eager, but with the soft expression of a bird dog.

**Eyes:** Well set in head. Well protected from briars by a heavy, expressive eyebrow. A prominent, full or pop eye should be heavily penalized. It is a serious fault in a dog that must face briars. Skull well chiseled under the eyes, so that the lower lid is not pulled back to form a pocket or haw that would catch seeds, dirt and weed dust. Preference should be for the darker colored eyes, though lighter shades of amber should not be penalized. Light and mean-looking eyes should be heavily penalized.

**Ears:** Set high, above the level of the eyes. Short and triangular, rather than pendulous, reaching about half the length of the muzzle. Should lie flat and close to the head, with the tip rounded very slightly. Ears well covered with dense, but relatively short hair, and with little fringe.

**Skull:** Medium length, rounded, very slightly wedge-shaped, but evenly made. Width, not quite as wide as the length and never so broad as to appear coarse, or so narrow as to appear racy. Well defined but gently sloping stop. Median line rather indistinct. The occiput only apparent to the touch. Lateral walls well rounded. The Brittany should never be "apple-headed" and he should never have an indented stop.

**Muzzle:** Medium length, about two-thirds the length of the skull, measuring the muzzle from the tip to the stop, and the skull from the occiput to the stop. Muzzle should taper gradually in both horizontal and vertical dimensions as it approaches the nostrils. Neither a Roman nose nor a dish-face is desirable. Never broad, heavy or snipy.

**Nose:** Nostrils well open to permit deep breathing of air and adequate scenting. Tight nostrils should be penalized. Never shiny. Color: fawn, tan, shades of brown or deep pink. A black nose is a disqualification. A two-tone or butterfly nose should be penalized.

**Lips:** Tight, the upper lip overlapping the lower jaw just to cover the lower lip. Lips dry, so that feathers will not stick. Drooling to be heavily penalized. Flews to be penalized.

**Bite:** A true scissors bite. Overshot or undershot jaw to be heavily penalized.

## NECK, TOPLINE, BODY

**Neck:** Medium length. Free from throatiness, though not a serious fault unless accompanied by dewlaps, strong without giving the impression of being over-muscled. Well set into sloping shoulders. Never concave or ewe-necked.

**Topline:** Slight slope from the highest point of the shoulders to the root of the tail.

**Chest:** Deep, reaching the level of the elbow. Neither so wide nor so rounded as to disturb the placement of the shoulders and elbows. Ribs well sprung. Adequate heart room provided by depth as well as width. Narrow or slab-sided chests are a fault.

**Back:** Short and straight. Never hollow, saddle, sway or roach backed. Slight drop from the hips to the root of the tail.

**Flanks:** Rounded. Fairly full. Not extremely tucked up, or flabby and falling. Loins short and strong. Distance from last rib to upper thigh short, about three to four fingers widths. Narrow and weak loins are a fault. In motion, the loin should not sway sideways, giving a zig-zag motion to the back, wasting energy.

**Tail:** Tailless to approximately four inches, natural or docked. The tail not to be so long as to affect the over-all balance of the dog. Set on high, actually an extension of the spine at about the same level. Any tail substantially more than four inches shall be severely penalized.

## FOREQUARTERS

**Shoulders:** Shoulder blades should not protrude too much, not too wide apart, with perhaps two thumbs' width between. Sloping and muscular. Blade and upper arm should form nearly a ninety degree angle. Straight shoulders are a fault. At the shoulders the Brittany is slightly higher than at the rump.

**Front Legs:** Viewed from the front, perpendicular, but not set too wide. Elbows and feet turning neither in nor out. Pasterns slightly sloped. Down in pasterns is a serious fault. Leg bones clean, graceful, but not too fine. Extremely heavy bone is as much a fault as spindly legs. One must look for substance and suppleness. Height at elbows should approximately equal distance from elbow to withers.

**Feet:** Should be strong, proportionately smaller than the spaniels', with close fitting, well arched toes and thick pads. The Brittany is "not up on his toes." Toes not heavily feathered. Flat feet, splayed feet, paper feet, etc., are to be heavily penalized. An ideal foot is halfway between the hare and the cat foot. Dewclaws may be removed.

**Hindquarters:** Broad strong and muscular, with powerful thighs and well bent stifles, giving the angulation necessary for powerful drive.

**Hind Legs:** Stifles well bent. The stifle should not be so angulated as to place the hock joint far out

**Feet:** Same as front feet.

**Coat:** Dense, flat or wavy, never curly. Texture neither wiry nor silky. Ears should carry little fringe. The front and hind legs should have some feathering, but too little is definitely preferable to too much. Dogs with long or profuse feathering or furnishings shall be so severely penalized as to effectively eliminate them from competition.

**Skin:** Fine and fairly loose. A loose skin rolls with briars and sticks, thus diminishing punctures or tearing. A skin so loose as to form pouches is undesirable.

**Color:** Orange and white or liver and white in either clear or roan patterns. Some ticking is desirable. The orange or liver is found in the standard parti-color or piebald patterns. Washed out colors are not desirable. Tri-colors are allowed but not preferred. A tri-color is a liver and white dog with classic orange markings on eyebrows, muzzle and cheeks, inside the ears and under the tail, freckles on the lower legs are orange. Anything exceeding the limits of these markings shall be severely penalized. Black is a disqualification.

**Gait:** When at a trot the Brittany's hind foot should step into or beyond the print left by the front foot. Clean movement, coming and going, is very important, but most important is side gait, which is smooth, efficient and ground covering.

**Temperament:** A happy, alert dog, neither mean nor shy.

**Disqualifications :** Any Brittany measuring under 17 1/2 inches or over 20 1/2 inches. Black in the coat. A black nose.

*The above Standard was approved by the AKC on April 9, 1990 and went into effect May 29, 1990.*

# ENJOY YOUR DOG

## More Action Per Acre

From the excitement of local field trial competition to the satisfaction of competing in and winning national upland game hunting events, NSTRA members really enjoy their dogs. So can you. No matter what pointing breed you own, if your dog can locate and point birds, you can be successful in NSTRA's fairly conducted field trials which reward both quality and quantity in the upland gamebird field trial competition.

**With NSTRA you can:**

- Earn championship points and obtain championship status
- Compete in regional field trials, NSTRA National Championship Trials, Dog of the Year and the Top Performance award competitions

# AMERICAN BRITTANY BREEDERS CLUB CODE OF ETHICS

*Adopted November 30, 1996*

*The following principles are to be used as an educational guide and a tool for Brittany breeders for the purpose to develop more genetic and disease free dogs, while being ethical in all matters with the public and with our peers.*

## **Objective and Purpose**

To promote cooperation and friendship among the breeders and owners of Brittanys and to encourage higher standards in breeding, training and showing of Brittanys in the field and in the show ring; to discourage the breed from becoming split into groups of “field dogs” and “show dogs” and to strive to keep it forever a “dual dog”.

## **Ethical breeders should:**

1. Comply with all ABC and AKC rules and regulations.
2. Maintain a high standard of health, care, and cleanliness for dogs under one's care.
3. Truthfully and realistically represent the Brittany being bred and/or sold in terms of quality, health, and genetic history. Refrain from breeding a bitch or using a stud until they are two (2) years old.
4. Consult with your breeder and with knowledgeable, experienced members of the ABC, regional clubs, or local kennel clubs to broaden your understanding and knowledge of the history of the breed BEFORE breeding your Brittany.
5. Breed only stock which are physically and temperamentally sound and in good health. No dog or bitch should be bred that is known to have serious inheritable defects or genetic diseases, such as:
  - a) canine hip/elbow dysplasia, primary epilepsy, a seizure disorder,
  - b) eye disorders - retinal atrophy, undescended testicles,
  - c) heart defects, extreme shyness, viciousness, other inheritable diseases or defects
6. Not attempt breeding without the ability to distinguish between correct and incorrect physical attributes. This ability requires a careful study of the breed standard, principles of genetics, and a study of both the sire and the dam's pedigrees. Breeders should study and learn the good points within our dogs, looking to both field ability and conformation.
7. Have their breeding stock OFA (Orthopedic Foundation for Animals), GDC (Genetic Disease Control) or PennHip certification numbers for hips on, at least, both the sire and the dam; preferably for three (3) generations on both sides of the pedigree. In addition, other tests (brucellosis, eyes, elbows, and other unspecified tests) should be declared in agreement between owners of the sire and the dam prior to breeding.
8. Refuse to sell to commercial wholesalers, retail brokers, or research laboratories.
9. Have tails docked and dew claws removed soon after birth. Prior to the sale of the puppies, initial shots for known infectious diseases should be given and worming administered. A buyer should be supplied with a four- (4) generation pedigree, registration certificate, information on all veterinary care, and instructions for the care, feeding, and training of the Brittany.
10. Remember your responsibility, as a breeder does not end with the sale of the puppy. A breeder should have contact with the buyer of a pup throughout the life of the dog. This information will enhance breeding knowledge and improve the foundation for a good long-term breeding program. This will also help your regional club to grow with new members and possible participants and workers.
11. Use spay/neuter agreements and/or consider limited registration if it is known or believed to manifest hereditary defects detrimental to the breed. **THE LONG TERM INTEREST OF THE BRITTANY SHOULD BE THE GOAL OF EVERY BREEDER.**
12. Consider DNA finger printing for all dogs in your breeding programs.

## Preparation

by Dave Webb

It is early morning on a cold April spring day. Our Brittany, Dewey has been entered in an Amateur Gun Dog field trial event being held in eastern Pennsylvania. This event was the same type of field trial, which had been held the previous week in western part of the State. Results from that previous event had been outstanding for Dewey – he had won the Amateur 30 minute stake.

This above paragraph is written only for one purpose. Not to brag, because one should never brag about their dog's accomplishments, but it is to start a discussion of what it take to "get there".

The title of this short piece, "Preparation", is the background for which a dog is trained to develop a high degree of performance, whether it is in the field, retrieving, agility, or show ring. It starts with using the dog's natural abilities to hunt by scent and point then retrieve game birds and then perform in other competitive events. It continues with training in all aspects that include, but not limited to:

- Find and establish point and hold to the flush,
- Steady-to-wing-and shot,
- Stop-to-flush,
- Back and honor another dog's point,
- Pattern and develop run to objective's (cover that holds birds – example being a distant tree-line),
- Mark and retrieve birds,
- Repeated practice in the agility and show arena.

To become accomplished in these events, various training methods can be used including the electric collar (e-collar), which is a very important training tool. The e-collar has three basic functions:

- Making corrections –when your dog makes a mistake for something he has already leaned,
- Gaining attention – getting your dog's attention,
- Teaching avoidance – ignoring non-game species such as deer and snakes.

The e-collar is a sophisticated training tool, which must be used with caution. Be sure to follow manufacturer's

instructions.

These training techniques are preparation for our Brittanys. In addition another aspect of preparation is conditioning. Each competitive event has its own level of conditioning that is necessary. Those events that require field work such as AKC and American Field retrieving and pointing trials are those events, which will be more intense. In addition, we should not expect our dogs to be confined to house or kennel and be ready to hunt when the season begins. Agility and show Brittanys also need to be conditioned to perform in their respective events.

The following conditioning guidelines are primarily focused on field trial events and well as hunting activities. A lesser degree of conditioning should be used for Brittanys participating in the other events. Do not overdue physical activity in summer high temperatures.

- If an ATV is available, start with 5 to 10 minute sessions twice a week,
- Ride a bike or run with your dog are other possible methods of exercise,
- Make sure water is available especially during warm temperatures,
- Know and read your dog during these conditioning sessions.

Conditioning for the show Brittany need not be as intense. However, consider that a "gated" dog in the show ring is one that is in good physical condition. "Practice makes perfect" is important as preparation before entering a show event. Grooming the Brittany for the ring is also an important area for preparation before participating in these events.

As previously mentioned, what were the results of the eastern Pennsylvania field trial that cold April morning? Considering Dewey's performance the previous week, there had been great expectations. However, preparation had nothing to do with the final outcome. There was a light frost and during the 30 minute event no birds were found. He had a good run, but just could not find a quail.

## APPLICATION FOR MEMBERSHIP IN THE AMERICAN BRITTANY CLUB

The American Brittany Club, Inc. is a member club of the American Kennel Club and is the recognized breed sponsor by the American Field.

The Club is composed of many Regional Clubs located from coast to coast. Most hold a licensed AKC field trial for championship points in the spring and fall seasons. Many hold a specialty (conformation) show and hunting tests. The Regional Clubs hold meetings to discuss mutual problems, fun trials, training sessions and other events of interest to their members.

**BECOMING A MEMBER:** Full membership in one of the Regional Clubs carries an automatic membership in the American Brittany Club and will entitle you to the monthly magazine. The American Brittany Associate Membership is available if person is a Full member of a Regional Club or immediate family member of a Full member. Full Membership cost is \$50.00 per year and \$5.00 per year for each Associate Member. Regional Clubs may charge higher dues. You may apply to join the Regional Club located nearest to you, or if there is none in your area, you may become a Member-at-Large of the American Brittany Club. Joining a Regional Club will afford you with the most opportunities for interaction with other Brittany owners.

**GIVE A GIFT MEMBERSHIP:** We are asking members to give a gift membership to a puppy purchaser, a friend or acquaintance who has a Brittany. All of us encounter people who may just need a little encouragement to become members.
